PROFILE SUMMARY

I'm a dedicated full-stack web developer with a solid understanding of both front-end and back-end technologies. My goal is to use my skills in HTML, CSS, JavaScript, Node.js, Express, and MongoDB to contribute to exciting web projects. I'm eager to learn, collaborate, and use my expertise to build user-friendly and modern web applications.

PROJECTS

Personal portfolio

Html, css, javascript

- I create a personal portfolio using HTML, CSS, and JavaScript programming languages
- showcasing my skills, projects, resume and About Me
- A dynamic and visual site that reflects my passion for web development

Hotel Booking System

React, node, express, mongodb,

- Develop a JavaScript-based hotel booking system using the MERN stack technology.
- Implemented database connectivity and CRUD operations for managing booking information.
- MERN stack enables seamless development with JavaScript throughout the entire web application.

CERTIFICATES

- Certified as a Front-End Web Developer on Udemy with the React library.
- Certified in Node.js and Express framework by Simplilearn.
- Completed the 'Introduction to MongoDB Database' course from Great Learning.

SOFT SKILLS

- I'm skilled at using AI tools effectively for my specific needs
- I work well with new team members and collaborate effectively.
- skilled at solving problems. I'm good at finding solutions to different challenges

---

PRACTICE

- Practicing JavaScript on HackerRank to improve coding profile - www.hackerrank.com/profile/purushothaman_7
